Mary Chesnut's diary is frequently referred to when researching civilian life during the Civil War.

Troops African American troops fought in segregated units led by white officers They were paid less than white soldiers

African American Troops They died in greater numbers but not because they were assigned to more dangerous job. Working in close proximity to one another, they caught diseases They were more likely to be killed when captured rather than taken as prisoner/contraband

Over 200 African American and some white soldiers were killed after they surrendered to Southern troops

Nathan Bedford Forrest led the slaughter After the war he and others form the Ku Klux Klan

The South began to run out of men, food and supplies not soon after the war began ?They printed so much currency that it had little value ? The Northern blockade effectively stopped Southern trade with Europe

Why Printing Money is Bad Currency, as paper, has no value - Generally we accept the face value on currency to be worth something ? If more paper is printed, we want more of it for goods Inflation occurs when there is too much money in the economy

Some Southerners traded with the North Cotton and food supplies exchanged hands

Northern Economy The North suffered but not nearly as bad as the South Inflation was worse in the North - 80% by the end of the war Industries that supplied the military boomed Machinery took the place of workers drafted into the GAR

Women in the Workplace Women took on many of the jobs and duties of the men who left to fight They were paid less, one of many ways business owners made tremendous profits during the war Northerners paid the first income tax to pay for the war
